MANAGEMENT'S STATEMENT

Commenting on the results, Mr. Arvind Kajaria, Managing Director said, "We are off to a strong start this year and are particularly pleased with the revenue strength and accelerated ECommerce growth.. The quantum jump in revenues continues to validate our business model and keeps us focused in creating solutions, which will drive further growth. During Amazon's Prime Day sale, held this year on July 12, 2016, the company brought in over \$1.0 million in revenues on this single day, as compared to \$530,000 last year, a 90% growth in sales, and an over 100% growth in the number of orders.

Key focus in the quarter was on process optimization. We see a clear co-relation between automation and our capacity to execute orders. Encouraged by the results, we have pledged to continue to invest our intellectual capital in optimization of our supply chain. This will ensure that we are able to capitalize on the upcoming holiday season demand. Overall, we are excited about our performance in the quarter and about the market opportunity ahead as we continue to gain market share and grow."
